SUGAR STOCK SUFFERED

PRONOUNCED EFFECT OF LEXOW INVESTIGATION ON 'CHANGE.

Other Factors Assist in Depressing Industrial Shares-Local Markets More Active.

At New York yesterday money on call was easy at 11/2@2 per cent.; last loan, 11/2; closed, offered at 11/2 per cent.

Prime mercantile paper 3@4 per cent. Sterling exchange was steady, with actual business in bankers' bills at 4.861/2/04.8634 for demand and at 4.84% @4.84% for sixty days; posted rates, 4.85 and 4.87\204.88; commercial bills, 4.831/2.

Silver certificates, 64%@65%; bar silver, 64%c; Mexican dollars, 50%c. At London bar silver closed at 29%d per ounce.

Total sales of stock were 194,090 shares, including: American Tobacco, 5,900; American Sugar, 80,600; Chicago, Burlington & Quincy, 8,200; Chicago Gas, 3,900; General Electric, 3,500; Louisville & Nashville, 5,900; Northern Pacific, 3,800; Northern Pacific preferred, 6,400; Reading, 3,700; St. Paul,

19,400. The overwhelming proportion of the transactions of the New York Steck Exchange yesterday was in the industrial stocks, with Sugar far in the lead in point of activity. Many factors combined to depress this group of stocks, and the narrow limits of transactions in the general list made it easily subject to the depressing influence of the leaders with the consequence that the course of the market was sharply downward during the day with a marked rally towards the close. The situation in the industrials continued much the same as for some time past, all being depressed by the proceedings in New York of the legislative committee which is now investigating the Sugar company, with a further prospect. Sugar, as being immediately the

subject of investigation, and as being open to other unfavorable conditions, was in the van of the downward movement, which began with the opening and after a period of apathy continued in a manner resembling partial demoralization. There were evidences of quite a heavy liquidation in this stock, and in the course of the decline extensive stop orders were apparently encountered which accelerated the fall in price. The whole market became a victim of this movement, the industrials in marked degree and the general list fractionally. There was a notable lack of support for the yielding market, and the decline was practically unopposed. The decline in the rice of Sugar in this movement was 2%. Leather preferred yielded 11/4; Tobacco, 13/4 Chicago Gas, 1; American Spirits preferred 11/4: Illinois Steel, 1. In the railway list Rock Island fell off 11/7: Northern Pacific, 1; Northern Pacific preferred, 11/8; Delaware & Hudson, 1. Some influence was also caused on the market by an unfounded rumor that Admiral Bunce's squadron of United States warships had been ordered to Havana to enforce the release of American prisoners there. There was also some ssion reflected from London and ope over the uneasiness felt there on account of the political situation, the Czar's ill health and the friction between the British and French governments over

LOCAL GRAIN AND PRODUCE. Trade Fairly Active, the Mild Weather Helping Business.

The week opened with a brisk trade in several lines. The dry goods houses had one of the best days of the present month, with prices unchanged. Wholesale grocers also had a big day. All staple groceries carry a firm tone, and further advances in sugar are looked for. The provision market is active, and prices on some descriptions of hog products easier. On Commission row a very fair business for Monday was done, the mild temperature permitting the shipments of fruits and vegetables to points not far away in common cars. rotatoes are plentiful and weak. Apples are less abundant and firmer. Oranges, lemons and bananas are in good supply and ruling steady. The hide market is more active, prices ruling steady. The leather market is fairly active, with prices easy. The seed market is more active, with prices firm. The flour market is unusually quiet and prices on the lower grades easier; on the best grades firm. The poultry and egg and butter markets are all easier on increasing receipts and a lighter Eastern de-

Elbert A. Awalt and Lillian May Caffyn. Mrs. Pounds on Child Character.

Mrs. J. E. Pounds gave an interesting lecture last evening at the Central Christion Church on the subject of "Child Characters of Dickens." She began by saying that children in fiction belong to the nineteenth century and are distinctly a discovery. Dickens and George Eliot, as writers of child character are unrivaled, except by each other. Dickens is the more dramatic. but George Eliot is more artistic. The secret of Dickens's sympathy with poor and unfortunate children is found in his own life. His early life was happy, but his later life very unhappy and sad. Mrs. Pounds then gave a sketch of Dickens's early life. "Each character of Dickens." she continued, "is the incarnation of poetic truth or moral protest." Smike, in "Nicholas Nickleby," was a protest against the Yorkshire school system, and "Oliver Twist" against the poor laws. Mrs. Pounds gave sketches of Little Nell, the Gradgrind chidren, Tiny Tim, Poor Jo, Paul Dombey and others, reading selections from the stories. "Our greatest debt to Dickens is that he made the wrongs of children his own, he spoke as their apostle," said she. In conclusion she said, "Dickens wrought much for the world in many ways, but in no other way has he wrought better than in giving to the world a new ideal of reverence for childhood." The proceeds of the lecture will be used for the

MARKET BECAME WEAK

WHEAT FINALLY CLOSED 1-2C UN-DER SATURDAY'S FIGURES.

Discouraging News Both at Home and Abroad for the Bulls-Provisions Remain Firm.

CHICAGO, Feb. 8.-Wheat closed to-day at about 1/2c decline after having sold nearly a cent above Saturday's close. Figures on the world's visible supply cut quite a figure in the day's speculation. Corn and oats were radically weak, corn declining %c and oats 1/2c. Provisions were firm, but show trifling changes.

The news that the traders in wheat had

to start their operations was not very encouraging for a bull market. Liverpool was only 1/2d higher at the opening than it closed Saturday, which was disappointing inasmuch as it was a very inadequate response to Saturday's 114c advance here. Beerbohm's report on the world's clearances of wheat and flour for the last week, which came in before the opening, gave the figures as 6,800,0000 bushels and the heavy increase thus shown had a marked effect. Minneapolis and Duluth reports were not encouraging by any means, the total for the two places being 511 cars, against 421 last week, and 655 on the corresponding day of the year before. These were the conditions under which May wheat, which closed at 77c on Saturday, opened to-day, with sellers at from 76%c down to 76%c. But the market became strong immediately after the opening. The early figures on the world's visible supply indicated a very large decrease, so large, in fact, that it made shorts scramble to cover their lines. Holders of wheat were not disposed to let go, the consequence being that the price of May got up to 77%c before any material reaction occurred. Meantime the local and port clearances were reported at 435,000 bu. A decline to 76% @76% c occurred when an announced, but this was quickly succeeded by the advance to 77%c, the high point of the day, which occurred on the posting of the day, which occurred on the posting of the day. It was due almost entirely to realizing, though this was undoubtedly accelerated by the world's shipments, which last week were 1,600 larger than the week before. New York reported that foreigners had turned free sellers there. May finally got down to 76% and closed at 76% @76%c. Corn maintained its price well till the closing drop in wheat, but during the progress of the latter it emulated wheat's weakness and closed at a decline for the day of %c per bushel in May. Receiving houses were active sellers. The visible supply in-

creased 1,394,000 bushels. May opened a shade lower at 2414c, sold at 2414@2436c and declined to 23%@24c, where it closed. Oats were quiet during the first part of the session, but with a tendency toward | showing a lower tendency. The American rep firmness.
